Work in real time

Our Xact settlement service is powerful yet user-friendly, enabling users to input and consult settlement instructions and positions. Its accessible design enables maximum productivity – inputting simple instructions is a straightforward process, whereas tasks that are more complex benefit from systematic guidance.

consolidated view of your portfolio and seamless, efficient management of your assets. In fact, our Consolidated List view gives you a comprehensive overview of your ICSD and CSD settlement activities providing you with full understanding of your instructions lifecycle and positions at any time, in real time.

Securities and cash positions – whether Commercial Bank Money (CoBM) or Central Bank Money (CeBM) – can be checked in real time. Input of instructions is also possible in both qualities of money. This is where the true benefit of Xact Web Portal is realised. Xact harmonises our connectivity tools for our ICSD, German CSD and LuxCSD, providing a fully

Benefits of Xact's Settlement Service

Work with T2S

- Input instructions settling in Central Bank Money (CeBM) for Clearstream Banking Frankfurt or LuxCSD
- Consult feedback from T2S in real time.

Work globally

- Input instructions settling in Commercial Bank Money (CoBM) for all Clearstream entities
- Access 56 markets worldwide and settle in 100 currencies.

Work more securely

- Choice between 2-, 4- or 6-eyes complexity where input, verify (optional) and release can be done by either one, two or three users.

Work more productively

- Quick input screen with only mandatory information to allow for very fast keying of instructions
- Save template of recurring instructions
- Upload bulk instructions files from an Excel file.

Work proactively

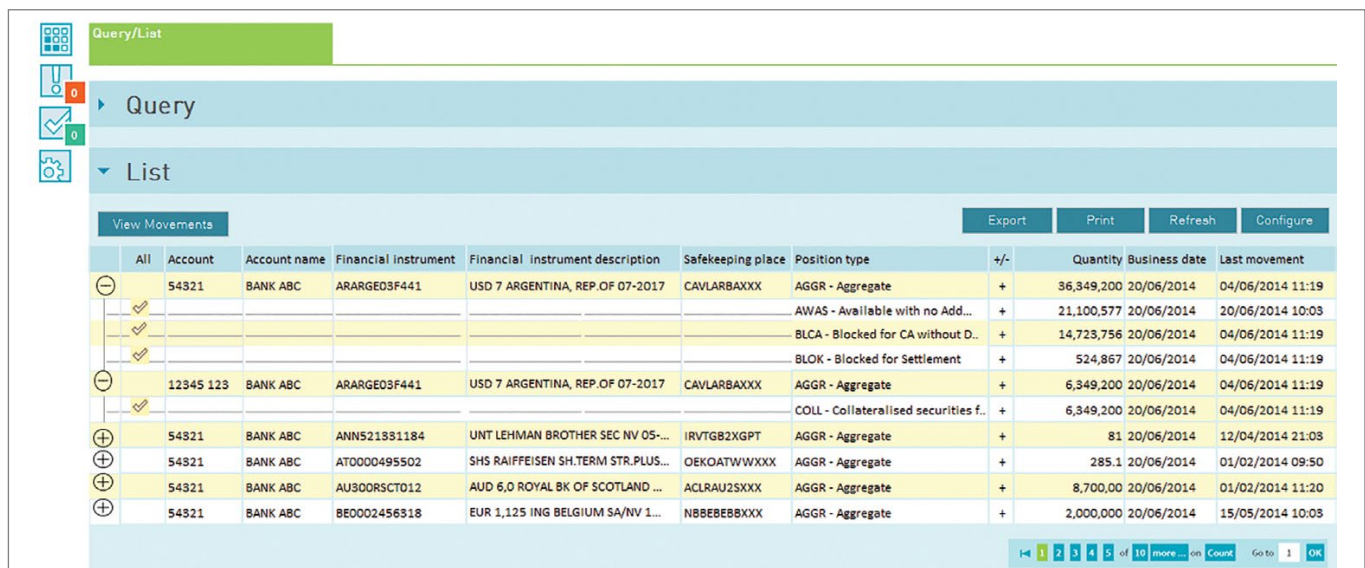

- Dashboard dedicated to Settlement
- My Indicators can be customised to each user's needs.

Work more easily

- The Input Wizard leads you step-by-step through complex instructions and unfamiliar domestic markets
- ISO 20022 standard input screens and detailed view
- Tooltips for additional information
- Contextual help anywhere.

Work in real time

- See your instructions status in real time. Refresh your screen to see the status change
- Check your positions, cash or securities, at any time and wherever you are.

The screenshot displays the 'Query/List' interface. It features a navigation menu on the left with icons for 'Query' and 'List'. The main area shows a table of financial instrument positions. The table has columns for 'All', 'Account', 'Account name', 'Financial instrument', 'Financial instrument description', 'Safekeeping place', 'Position type', '+/-', 'Quantity', 'Business date', and 'Last movement'. The data is grouped by account and instrument type.

All	Account	Account name	Financial instrument	Financial instrument description	Safekeeping place	Position type	+/-	Quantity	Business date	Last movement
